

## ORAL EXAM – Role play

Rennes 2's University is looking for new ideas to become a “smart” and green campus. Your objective, in groups, is to propose suggestions.

1. Find one or several ideas (if you really have no idea, you can watch a video on my Coursus page for inspiration).
2. Develop some arguments on why your idea(s) is(are) the best for the university.
3. OPTIONAL: Work on the presentation of your idea using a Google Slide / Powerpoint.
4. Present your idea in groups of 3-4 students maximum by using what we have seen in class: English rhythm / sentence stress / plural pronunciation.

### Guidelines:

- The presentation should not last too long: **2-3 minutes per person** should be enough.
- I prefer **quality** over quantity: the idea is to speak less but to pay attention to your English.
- Texts are **not allowed**, just key words: I do not want you to read.
